

Individual reflection: Week 40

What do I want to learn or understand better?

Every time a sprint comes I think the learning process continues. Because in every user story each sprint brings new challenges and it opens the ability to learn new things.

How can I help someone else, or the entire team, to learn something new?

Nothing has changed actually. I still do the same

What is my contribution towards the team's use of Scrum?

I'm trying to finish all the tasks given to me, and making sure that marks check them on the scrum board when finished.

What is my contribution towards the team's deliveries?

Nothing has changed.
