Social Contract
DIT257 Agile software project management
Team Ginger

1. Be present at the meetings (Otherwise notify the group beforehand if not possible, e.g. through group chat).

2. Delivery according to the project plan and deadline during project execution, if this is not possible the group will work together to solve the problem.

3. Respect each other's opinions and collaborate.

4. Aim to finalize the project and final report before the exam week.

5. Constructive feedback.

6. Together define measurable KPI.

7. Agree on the privacy for individual reflection.

8. Give each other air time during the discussion.

9. Inform each other if we need additional support.

10. Have fun.
